

**IN THE SPECIFICATION**

Kindly enter the amendments to the specification.

Page 15, replace the paragraph starting on line 1 with the following:

~~encoded for part by the standard (V5) HXT3 sequence and for other part by the HXT3 Fermichamp sequence.~~ The expression of these [[a]] chimeric HXT3 proteins restores the growth of the transformed yeasts on glucose and are selected for growth on YPD (YP-glucose 2%).
